

# Odds or Evens

**Players:** Two

**Goal:** Be the first to make 15 from three cards in a row, column, or diagonal.

**How to Play:**

1. Make a set of cards 1-9.
2. One player takes the five odd-number cards and one takes the four even-number cards.
3. Player with odd cards places one on the grid.
4. The player with the even cards puts one on the grid.
5. Keep it going! The first player who makes a row, column, or diagonal that equals 15 wins!
