

Student Self-Assessment for Group Work

The goal of civic learning and engagement is to help students become leaders and form their voices. Ask students to score themselves on the rubric’s first section based on their own learning and participation as members of a collaborative group. Then have students use the second section to assess their peers. Customize with additional criteria and specific tasks as necessary.

Student Self-Assessment Rubric

Name: _____

Date: _____

Criteria	4	3	2	1	Points
