

Individual Student Goal Development Plan

This tool is designed to support retention of high school students in your 21st CCLC program by helping you to connect with youth on a deeper level so you better understand their unique strengths, skills and aspirations. This knowledge will help you to connect all the important places, people and opportunities in the lives of the young people. Showing your interest in their development will help students feel connected to you and the program and motivate them to continue to participate. Have a staff member, assigned as a mentor or guide for an individual high school student, work with the student to complete this plan at the beginning of the program year or upon enrollment. The adult should also make periodic checks on how the plan is progressing over a 6- to 12-month period.

Student Name		Enrollment Date	
Program Name		Graduation Date	
Staff Name		Student Grade	
Student Vision Statement: <i>Please describe where you want to be in the next 6-12 months.</i>			
Identify your strengths and skills: <i>What are you interested in? What are you good at?</i>
